**FINZSOFT SOLUTIONS LIMITED
NEWS RELEASE**

Headline: Finzsoft's Sush Mobile ranked no. 52 in the Deloitte Asia Pacific Technology Fast 500

Image for publication: Finzsoft's Andrew Holliday with Sush Mobile founders Sulabh Sharma and Sheenu Chawla. Sush Mobile ranked no. 52 in the Deloitte Asia Pacific Technology Fast 500.

[Sush Mobile](#), acquired in September by Auckland-based financial technology company Finzsoft Solutions Limited ([NZX:FIN](#)), is one of just 12 Kiwi companies to be ranked in the top 100 of the [2014 index](#) of the Deloitte Asia Pacific Technology Fast 500.

The app-maker and innovative mobile solutions provider experienced 667% growth last year, and was recently named the ninth fastest-growing company in the country in the [2014 Deloitte Fast 50](#).

Deloitte's awards programmes celebrate businesses across a range of sectors experiencing rapid revenue growth, and Finzsoft's Managing Director Andrew Holliday says the achievements are a fitting endorsement of the Sush Mobile team and the strong culture of innovation at both companies.

"Sush Mobile has done a brilliant job leading the way in mobility by being single-minded about an outstanding user experience," said Holliday. "We're very proud of their work, and to have them as part of the Finzsoft team."

According to Sush Mobile founders and joint chief executives, Sheenu

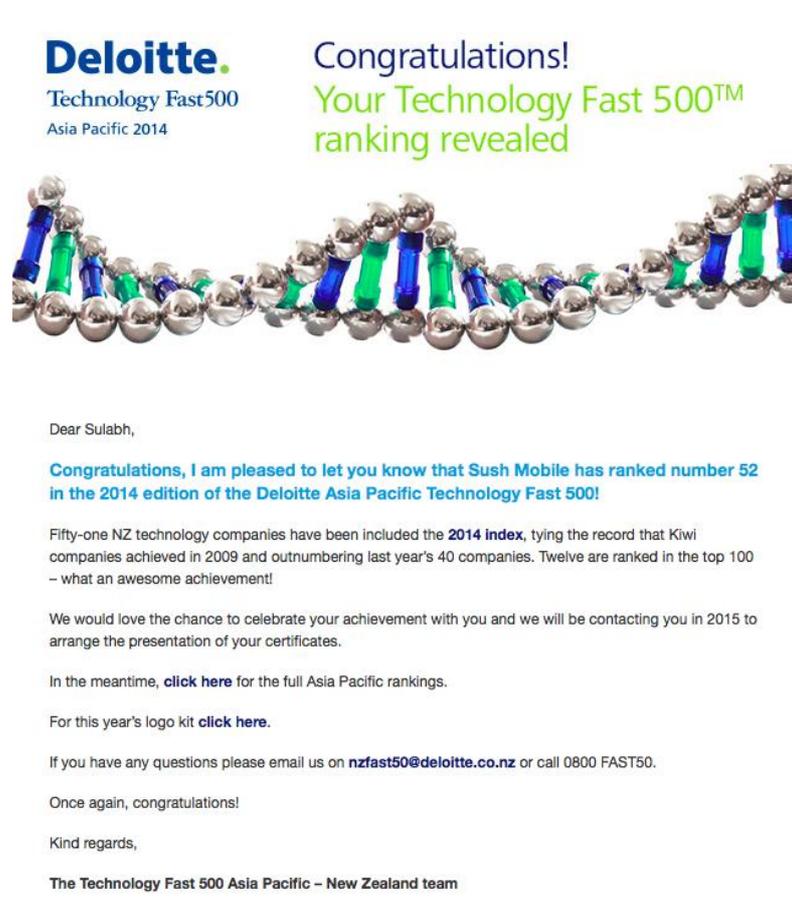

Chawla and Sulabh Sharma, the Technology Fast 500 ranking is validation of the company's focus on quality and commitment to delivering the very best experience throughout the customer journey: "We've witnessed a steady growth in demand and interest from enterprise customers," says Mr Sharma. "It's very clear from where we're standing that more and more companies are exploring what's possible in mobile."

Together, Finzsoft and Sush Mobile will continue to leverage 'mBank' solutions to respond to key disruptive trends in banking – O2O (online to offline), IoT (Internet of Things) and customer centricity.

The companies have partnered on mobile banking apps that Finzsoft has developed for local building society and credit union clients, as well as St George Bank in Australia, as part of their recent work orders.

"By partnering with Sush Mobile, Finzsoft has been able to address the challenging and changing demands of a dynamic and mobile orientated market," says Holliday. "We couldn't be prouder of our teams, and the other fantastic Kiwi companies recognised by Deloitte."

The Deloitte Fast 500 acknowledgement caps a successful year for Sush Mobile. The company co-developed the [Kiwibank Home Hunter](#) app, which was named a winner at last month's NZ Innovators Awards.
